CHARTER AMENDMENT

An amendment to Section 8.2 of Chapter VIII of the City Charter to increase the authorized maximum millage from fifteen (15) mills to twenty (20) mills which may be levied annually by the City Council for general municipal purposes.

This amendment will increase the Charter limit from 15 mills to 20 mills. It is estimated that if levied, the five (5) additional mills would raise approximately \$220,000.00 when first levied in 2010.

Shall the proposed amendment be adopted?
