			PEP and IDEP Due Nov 1, 2004 to cover all of Oakland County							

Items in Italics are created in coordination with the Subwatershed Advisory Groups (SWAG). A single PPP and a single WMP is developed for the entire Subwatershed (i.e. one document per subwatershed). Oakland County must participate with each SWAG for the development and revision of these plans.

Highlighted items are created solely by the permittee (Oakland County). A single SWPPI, Annual Report, PEP, and IDEP will be developed for the entire county. Oakland County must develop and revise these plans as well as submit Annual Reports.

- Acronyms:**
- PPP Public Participation Process
 - WMP Watershed Management Plan
 - PEP Public Education Plan
 - IDEP Illicit Discharge Elimination Plan
 - SWPPI Storm Water Pollution Prevention Initiative
