A letter from L. Brooks Patterson,
Oakland County Executive

Oakland County, Mich., is home to more than 700 foreign-owned firms from 37 countries – a rich global diversity that few locations in the world can match. Oakland County is also blessed with vibrant life science and manufacturing industries. They help comprise the 42,000 businesses that make Oakland County the economic engine that drives Michigan’s economy.

This manufacturing directory provides you with one-stop access to the Michigan-based supply chain that supports our life science industry and Oakland County’s Medical Main Street. If you seek a supplier for life science manufacturing – or you want to be located near this dynamic supply chain – look no further than this directory.

Contact Senior Business Development Representative Irene Spanos at (248) 858-9099 or at info@medicalmainstreet.org to learn how Oakland County can help your business grow in Michigan.

A handwritten signature in black ink, reading "L. Brooks Patterson". The signature is fluid and cursive, with a long horizontal stroke at the end.

L. Brooks Patterson
Oakland County Executive
