

APPRENTICESHIPS

in Oakland County and Southeastern Michigan

2011 Edition

On behalf of our region's employers, labor organizations, and educators, I invite and encourage you to read this 2011 edition of our Apprenticeship Booklet, which will acquaint you with apprenticeships in Oakland County and elsewhere. These apprenticeships can prepare you for good paying jobs that provide excellent benefits.

More than 8,000 copies of the booklet's first four editions were distributed to job seekers, students, parents, K-12 school districts, high school guidance counselors, community colleges, Michigan Works! Service Centers, and other organizations. The Oakland Press wrote that the first edition contained "an eye opening 30 pages of information," and the National Association of Counties (NACo) awarded the booklet a prestigious achievement award.

The booklet's information is relevant, because Oakland County's economy is increasingly knowledge-based. High paying, low skill jobs are being replaced with career opportunities that require technical skills and a good education. Indeed, the University of Michigan's "Economic Outlook for Oakland County" predicts that jobs in industries with above-average educational requirements will grow about twice as fast as jobs in industries that require less education.

Not all of these and other high-skill jobs require a four (or even a two) year college degree. As an apprentice, for example, you can qualify for jobs in the skilled trades, culinary arts, health care, or social service sectors. You will work (and earn wages) while you receive on-the-job training and attend classes at a community college or an apprenticeship school.

According to the U.S. Department of Labor's Office of Apprenticeship (OA), those who complete apprenticeships in Michigan earn an average hourly wage of approximately \$23 and receive a certificate of completion that is recognized throughout the United States. Moreover, a union-sponsored apprenticeship will award a candidate who completes the program a journeyperson's card, and college credits the apprentice earns can be applied to an associate's degree.

Like its first four editions, this booklet asks and answers several key questions and provides information about occupations for which apprenticeships are developed. This new and enhanced edition updates information and highlights some new occupations (for a total of 53), including those in the health care, advanced manufacturing, service, and construction industries.

I hope you will find this new and enhanced edition of our Apprenticeship Booklet useful as you explore the lucrative careers that are available through the apprenticeship system.

SECTION II

QUESTIONS AND ANSWERS ABOUT APPRENTICESHIPS

1. What is an apprenticeship?

An apprenticeship is a combination of, structured, on-the-job training and related classroom instruction through which workers learn the practical and theoretical aspects of a highly skilled occupation.

Apprenticeship programs can be sponsored by individual employers, joint employer and labor groups, and/or employer associations.

2. What occupations offer apprenticeships?

More than 1,000 occupations are approved for apprenticeships through the U.S. Department of Labor's Office of Apprenticeship. Many apprenticeships are in the construction and production fields (e.g., Carpenter, Electrician), but apprenticeships are also available in health care, social services, education, law enforcement, child care development, and new emerging sectors such as: information technology, energy, telecommunications and more.

3. How long does an apprenticeship last?

Apprenticeships can be one to five years in length, but most last 4 years. During this time, you'll receive a combination of on-the-job training and classroom instruction at a community college or apprenticeship school.

A four-year apprenticeship typically includes 8,000 hours of work supervised by a journey-level craftsperson or trade professional and 576 hours of classroom instruction. Over the course of the four years, this would equal forty hours per week of work and an average of less than three hours per week in the classroom (although the actual class schedule may be different).

4. Does an apprentice earn wages?

Since an apprentice is a full-time employee of the company that sponsors the apprenticeship, s/he earns wages just like any other employee. Starting wages are usually 40-50% of the journeyperson's wage, and go up as the apprentice completes training and gains more experience and skills.

5. Who is eligible to become an apprentice?

Apprenticeships are open to everybody. Many require that the apprentice be at least 18 years old and have a high school diploma or GED. Some apprenticeships have minimum requirements for math and/or science. Strong math and reading skills are essential.

6. Why should I become an apprentice?

- Apprentices begin working (and earning money) immediately in their chosen field.
- All the training and education apprentices receive are directly related to their work.
- After successfully completing the program, apprentices receive a nationally-recognized Certificate of Completion from the U.S. Department of Labor's Office of Apprenticeship.
- If the apprenticeship is sponsored by a labor union, the apprentice will also receive a journeyperson's card, a guarantee of excellent wages and benefits anywhere in the country.
- Apprentices who take their instruction at a community college will receive a certificate and may be able to apply those credits toward an associate's degree. Many associate's degrees can be applied toward a bachelor's degree at a four-year college or university.

7. How do I become an apprentice?

There are two ways to become an apprentice: through a partnership between a labor organization and an employer (called a Joint Apprenticeship Committee, or JAC), or through a partnership between a community college and an employer.

JACs may have different requirements or procedures for applying for an apprenticeship; some will only accept applications from current employees, and others are open to anyone. Applicants must pass a test, and those with the highest scores are hired first. You should contact the JAC for a particular apprenticeship for more information.

The second path to an apprenticeship is a partnership between a community college and an employer. The classes are usually offered on the college's regular schedule, but remember that just taking the classes doesn't make you an apprentice – you have to be hired by an apprenticeship employer first. If you're interested in a particular apprenticeship but aren't sure whether there are any openings, contact the Apprenticeship Coordinator at the college for assistance. **All certified apprentices can apply their related technical instruction toward an associate degree. journeypersons can receive up to 32 credit hours toward their Associate Degree, which is 64 credit hours. Contact Oakland Community College at (248) 232-4394 or another community college of your choice.*

8. How do I prepare for an apprenticeship?

- Take math and science classes every year of high school.
- Learn how to prepare for and take exams.
- Work part-time or during the summer for an employer with whom you are interested in apprenticing. Many employers prefer to hire internal candidates for apprenticeships.
- Get involved in extracurricular activities such as: woodworking, drawing, computers, and science experiments.
- Do informational interviews with potential apprenticeship employers or the Apprentice Coordinator at the community college. This will help you understand the job more clearly and demonstrates your interest and commitment.
- If you are lacking some of the required skills or classes required of an apprentice, take classes through the community college.

9. Do apprentices go to college?

Apprenticeships are a combination of on-the-job training (OJT) and classroom education that directly applies to the job. Classes may be offered by the JAC, the employer, or at a local community college. The classes you take toward an apprenticeship may count toward an associate degree; contact the Apprentice Coordinator for more information.

10. Where can I learn more?

To learn more about apprenticeships please visit the following websites:

- <http://www.meata.org> (Michigan Educators Apprenticeship Training Association).
- The U.S. Department of Labor's Office of Apprenticeship (OA) website (<http://www.doleta.gov/OA/>) has additional information for apprentices and employers.
- For a list of apprenticeship opportunities by county, go to: <http://oa.doleta.gov> and follow the Search Program Sponsors Database link.
- For more information about occupations, including those that offer apprenticeships, visit www.milmi.org. Select **Occupation Information** from the links on the left. The Occupational Information Tools section has information about occupations, wages, skills needed, working conditions, education and training needed, and more.

SECTION III

EMPLOYER BENEFITS

When they partner with a labor union or a community college to sponsor an apprenticeship, employers realize several benefits. For example, apprenticeships:

- Provide a catalyst for high performance and productivity, and a committed workforce;
- Impart the knowledge and skills of experienced workers to new employees;
- Offer an excellent return on your training investment;
- Develop processes for building partnerships with certification and licensing agencies;
- Increase employee attentiveness to policies, procedures, safety issues, and security programs;
- Add a valuable inducement for recruiting and retaining a high quality workforce;
- Add to employee retention;
- Are business driven; and
- May qualify for state tax benefits or other financial support.

A Registered Apprenticeship is a proven method for increasing the return on an employer's training investment and developing the human resources the employer needs to succeed. It combines the concepts of on-the-job training, mentoring, and related instruction, while it offers the flexibility to train the employer's workforce to meet his/her standards and needs.

Additional apprenticeship benefits follow:

- Competency levels increase rapidly; employees very quickly put their newly acquired knowledge and expertise to productive use.
- Apprenticeship programs respond to real-world business goals, including increased productivity/performance, greater efficiency, and improved attentiveness to safety concerns. Employers in the Energy Industry, for example, partner with credentialing and licensing agencies to ensure that apprentices get the training and instruction they need to meet the high level of competency the industry requires.

For additional information see <http://www.doleta.gov/OA/employer.cfm>

If you are an employer who wants more information about sponsoring an apprenticeship, please contact your local community college's apprenticeship coordinator. Oakland Community College's coordinator can be reached at (248) 232-4394.

SECTION IV

APPRENTICESHIPS BY CATEGORY

This section of the booklet contains information about specific occupations for which apprenticeships have been developed. This is not a complete list – there are over 860 occupations with recognized apprenticeships.

The apprenticeships in this section are organized by field of interest, so you can explore different options with similar skills and work environments. Each entry contains the following information:

Job description: A description of the general job tasks and responsibilities for this occupation.

Length of apprenticeship: The length or time or number of hours required to complete this apprenticeship. Apprenticeships last from 1-5 years, although most are 4 years in length. All apprenticeships include classroom instruction as part of the program.

Labor market forecast: The number of job openings expected in the Detroit Metropolitan Statistical Area (MSA) in the next 5 years. These are projections and do not guarantee a job opening. All projections are from the Michigan Department of Energy, Labor and Economic Growth's Bureau of Labor Market Information and Strategic Initiatives, as found on the Career InfoNet website (www.careerinfonet.org).

Average hourly/yearly wage: The average hourly and yearly wage for this occupation in the Detroit MSA. These are averages and do not guarantee the wage for a particular occupation. All wage information is from the Michigan Department of Energy, Labor and Economic Growth's Bureau of Labor Market Information and Strategic Initiatives, as found in the 2009 Annual Planning Information Report.

Apprenticeship programs: A list of the sponsoring organizations for a specific apprenticeship. Some are created through a Joint Apprenticeship Committee (JAC); others are coordinated through local unions, technical training centers, and/or community colleges.

Applicant requirements: General admission requirements for the apprenticeship are listed here. There may be additional requirements that are not listed. Meeting the requirements is not a guarantee of admission to a program.

If you are interested in an apprenticeship that is not listed, or if you'd like to be an apprentice but aren't sure what fields are a good fit for your interests and skills, contact the Apprentice Coordinator at your school or community college for more assistance.

Every effort has been made to ensure that the information in this booklet is complete and up-to-date; please contact the listed apprenticeship coordinator or program contact for the most recent information about a particular apprenticeship.

This list is not intended to imply that an apprenticeship is currently available. Contact the JAC or apprenticeship coordinator for more information about the availability of a particular apprenticeship. If you cannot reach the listed contact, please call the Oakland County Workforce Development Division at (248) 858-5520 or e-mail almstadtj@oakgov.com.

The Oakland County Executive supports all of the apprenticeships that appear on the list, but he makes no endorsement or recommendation for any specific program.

1. ASBESTOS WORKER/HAZARDOUS MATERIALS REMOVAL WORKER

Job Description:

Asbestos workers and other hazardous waste workers identify, remove, pack, transport, or dispose of hazardous materials, including asbestos, lead-based paint, waste oil, transmission fluid, radioactive materials, and contaminated soil. These workers also apply insulation and wrap pipe and tanks for heat, frost, and condensation insulation in industrial settings.

Length of Apprenticeship:

Four years

Labor Market Forecast:

30 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Asbestos workers in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$19.78 and an average yearly salary of \$41,140.

Apprenticeship School:

Asbestos Workers Apprentice Training Center Local 207

26453 Northline Road

Taylor, Michigan 48336

(800) 207-5622 (Apprentice Coordinator)

Applicant Requirements:

Applicants must have a high school diploma or a general equivalency diploma (GED), be at least 18 years old, and possess a valid driver's license. Applicants must also live in Wayne, Oakland, Macomb, St. Clair, or eastern Washtenaw Counties.

2. AUTO BODY REPAIRER

Job Description:

Auto body repairers fix damaged bodies and body parts of automotive vehicles, including cars, vans, trucks, buses, campers and trailers.

Length of Apprenticeship:

Four years

Labor Market Forecast:

240 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Auto Body Repairers in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$20.74 and an average yearly salary of \$43,140.

Community College Apprenticeship Programs for Auto Body Repairers:

Oakland Community College

2900 Featherstone Road

Auburn Hills, Michigan 48326

(248) 232-4394 (Apprentice Coordinator)

Mott Community College

1401 East Court Street

Flint, Michigan 48503

(810) 762-0224 (Apprentice Coordinator)

College Admission Requirements:

Applicants must be a high school graduate or a GED recipient and 18 years of age or older. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

3. AUTOMOBILE MECHANIC

Job Description:

Automotive mechanics diagnose, repair and overhaul automobiles, buses, trucks, and automotive vehicles.

Length of Apprenticeship:

Four years

Labor Market Forecast:

790 annual job openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Automobile Mechanics in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$18.95 and an average yearly salary of \$39,410.

Community College Apprenticeship Programs for Automobile Mechanics:

Henry Ford Community College

5101 Evergreen
Dearborn, Michigan 48128
(313) 845-9609 (Apprentice Coordinator)

Macomb Community College

14500 East Twelve Mile Road
Warren, Michigan 48093
(586) 445-7519 (Apprentice Coordinator)

Mott Community College

1401 East Court Street
Flint, Michigan 48503
(810) 762-0224 (Apprentice Coordinator)

Oakland Community College

2900 Featherstone Road
Auburn Hills, Michigan 48326
(248) 232-4394 (Apprentice Coordinator)

College Admission Requirements:

Applicants must be a high school graduate or a GED recipient and 18 years of age or older. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

4. BAKER

Job Description:

Bakers mix and bake ingredients in accordance with recipes to produce breads, rolls, cookies, cakes, pies, pastries, or other baked goods.

Length of Apprenticeship:

One to two years

Labor Market Forecast:

130 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Bakers in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$11.40 and an average yearly salary of \$23,700.

Community College Apprenticeship Programs for Bakers:

Henry Ford Community College

5101 Evergreen
Dearborn, Michigan 48128
(313) 845-9609 (Apprentice Coordinator)

Mott Community College

1401 East Court Street
Flint, Michigan 48503
(810) 762-0224 (Apprentice Coordinator)

Oakland Community College

2900 Featherstone Road
Auburn Hills, Michigan 48326
(248) 232-4394 (Apprentice Coordinator)

College Admission Requirements:

Applicants must have a high school diploma or GED and be at least 18 years old. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

5. BOILERMAKER

Job Description:

Boilermakers construct and repair utility plants, chemical plants, automotive plants, refineries, steel manufacturing facilities, ore processing plants, and mine plants throughout Michigan.

Length of Apprenticeship:

Four years

Labor Market Forecast:

30 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Boilermakers in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$32.34 and an average yearly salary of \$67,267.

JAC Apprenticeship School:

Boilermakers Training Center (www.boilermakerslocal169.com)

1755 Fairlane Drive
Allen Park, Michigan 48101
(313) 584-8520 (Administrator)

Applicant Requirements:

Applicants must have a high school diploma or GED, and be at least 18 years old. Also required are passage of an entrance exam, a pre-physical evaluation, and a drug test.

6. BRICKLAYER

Job Description:

Bricklayers construct walls, partitions, fireplaces, chimneys, and other structures from brick and other masonry materials, including concrete, cinder, or gypsum block, and from precast panels made of brimstone, marble, structural tile, or terra cotta. They also install the brick linings of industrial kilns and furnaces.

Length of Apprenticeship:

Three years

Labor Market Forecast:

150 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Bricklayers in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$26.10 and an average yearly salary of \$54,280.

JAC Apprenticeship School:

International Masonry Institute (www.bricklayers.org) Click on IMI Training

Detroit Metropolitan Masonry Joint Apprentice Training Center

21031 Ryan Road

Warren, Michigan 48091

(586) 757-6668 (Apprentice Coordinator) E-mail: tom.ward@bricklayers.org

Applicant Requirements:

Applicants must be 18 or older, be in possession of a driver's license, and have completed two years of high school. Residency in Wayne, Oakland, Macomb or Monroe counties is required. Twelve weeks of pre-apprentice training is also required.

7. CABINET MAKER

Job Description:

Cabinet makers and bench carpenters cut, shape, and assemble wooden articles or set up and operate a variety of woodworking machines, including power saws, jointers, mortisers, to surface, cut, or shape lumber, or to fabricate parts for wood products.

Length of Apprenticeship:

Four years

Labor Market Forecast:

90 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Cabinet Makers in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$15.92 and an average yearly salary of \$33,120.

JAC Apprenticeship School:

Detroit Carpenters Apprenticeship School

1401 Farrow

Ferndale, Michigan 48220

(248) 541-2740 (Director)

Applicant Requirements:

Applicants must have a high school diploma or GED and be at least 18 years old.

Community College Apprenticeship Program for Cabinet Makers:

Macomb Community College

14500 East Twelve Mile Road

Warren, Michigan 48093

(586) 445-7519 (Apprentice Coordinator)

College Admission Requirements:

Applicants must have a high school diploma or GED and be at least 18 years old. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

8. CAREER DEVELOPMENT TECHNICIAN

Job Description:

Career Development Technicians assess adult/youth job readiness and personal growth goals; assist the customer/youth with job search; maintain customer/youth case records; and generate, analyze and interpret program data and other statistical records. They also establish agreements with businesses to provide placement and on-the-job learning; establish agreements with non-profit agencies or post secondary institutions to provide necessary life skills to adults; and administer and interpret assessments for customers/youth to determine their interests, abilities, and job skills.

Length of Apprenticeship:

4500 hours on-the-job plus college credit hours.

Labor Market Forecast:

Data is unavailable.

Average Hourly/Yearly Wage:

Career Development Technicians in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$14.00 and an average yearly salary of \$29,100.

Community College Apprenticeship Program for Career Development Technicians:

Oakland Community College

2900 Featherstone Road

Auburn Hills, Michigan 48326

(248) 232-4394 (Apprentice Coordinator)

College Admission Requirements:

Applicants must have a high school diploma or GED and be at least 18 years old. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

9. CARPENTER

Job Description:

Carpenters, the largest group of building trades workers, are employed in all facets of construction activity. They erect the building's wood frame, including subflooring, sheathing, partitions, floor joists, studs, and rafters. They install heavy timber, build forms, erect scaffolding, and install floor coverings. When a building is ready for trimming, carpenters install molding, wood paneling, cabinets, window sashes, door frames, doors, and hardware. They also build stairs and lay floors. In addition, as part of their job, carpenters assemble plywood, wallboard, and many other materials.

Length of Apprenticeship:

Four years

Labor Market Forecast:

630 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Carpenters in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$21.23 and an average yearly salary of \$44,140.

JAC Apprenticeship School:

Detroit Carpenters Apprenticeship School (www.detcarpapp.org)

1401 Farrow

Ferndale, Michigan 48220

(248) 541-2740 (Director)

Applicant Requirements:

A high school diploma or GED, birth certificate, Social Security card, and picture identification are required at the time of application. Applicants must be at least 17 years of age and be able to pass a drug screen.

Community College Apprenticeship Programs for Carpenters:

Macomb Community College

14500 East Twelve Mile Road
Warren, Michigan 48093
(586) 445-7519 (Apprentice Coordinator)

Mott Community College – Listed under Building Construction program

1401 East Court Street
Flint, Michigan 48503
(810) 762-0224 (Apprentice Coordinator)

Oakland Community College

2900 Featherstone Road
Auburn Hills, Michigan 48326
(248) 232-4394 (Apprentice Coordinator)

College Admission Requirements:

Applicants must be a high school graduate or a GED recipient and 18 years of age or older. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

10. CARPENTER/FLOOR LAYER

Job Description:

Carpenters/Floor Layers install carpeting, hardwood flooring, soft tiles, and “linoleum type” products that are made of vinyl and rubber. Floor layers install a wide range of decorative floor coverings in commercial buildings, hotels, homes, and churches.

Length of Apprenticeship:

Four years

Labor Market Forecast:

630 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Carpenters in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$21.23 and an average yearly salary of \$44,160.

JAC Apprenticeship School:

Detroit Carpenters Apprenticeship School (www.detcarpapp.org)

1401 Farrow
Ferndale, Michigan 48220
(248) 541-2740 (Director)

Applicant Requirements:

A high school diploma or GED, birth certificate, Social Security card, and picture identification are required at the time of application. Applicants must be at least 17 years of age and be able to pass a drug screen.

Community College Apprenticeship Programs for Carpenter/Floor Layer:

Macomb Community College

14500 East Twelve Mile Road
Warren, Michigan 48093
(586) 445-7519 (Apprentice Coordinator)

Mott Community College – Listed under Building Construction program

Flint, Michigan 48503
(810) 762-0224 (Apprentice Coordinator)

Oakland Community College
2900 Featherstone Road
Auburn Hills, Michigan 48326
(248) 232-4394 (Apprentice Coordinator)

College Admission Requirements:

Applicants must be a high school graduate or a GED recipient and 18 years of age or older. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

11. CEMENT MASON

Job Description:

Cement masons smooth and finish the exposed concrete surfaces of all types of construction projects. These projects range from small jobs, including patios, floors, walls, sidewalks, or curbs, to work on huge dams, miles of concrete highways, foundations, and walls of large buildings, airport runways, and missile launching sites.

Length of Apprenticeship:

Three years

Labor Market Forecast:

160 annual job openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Cement Masons in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$19.44 and an average yearly salary of \$40,430.

JAC Apprenticeship Schools:

Cement Masons OPCMIA Local 514

Applicants must have a high school diploma or GED and be at least 18 years old. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

36. MEDICAL TRANSCRIPTIONIST:**Job Description:**

Medical transcriptionists use transcribing machines with headset and foot pedal to listen to recordings by physicians and other healthcare professionals dictating a variety of medical reports, such as emergency room visits, diagnostic imaging studies, operations, chart reviews, and final summaries. These duties include transcribing dictated reports and translating medical jargon and abbreviations into their expanded forms. Duties also include editing as necessary and returning reports in either printed or electronic form to the dictator for review and signature, or correction. As a medical transcriptionist, you may work for hospitals, clinics, or independent transcription companies transcribing dictated medical reports, which are critical for statistical reports, legal issues, proper billing, and continuity of patient care.

Length of Apprenticeship:

Two years

Labor Market Forecast:

60 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Medical transcriptionists in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$16.59 and an average yearly salary of \$34,500.

Community College Program for Medical Transcriptionists:

Note: Program internship required.

Oakland Community College

2900 Featherstone Road

Auburn Hills, Michigan 48326

(248) 232-4394 (Apprentice Coordinator)

**College Admission Requirements:**

Applicants must have a high school diploma or GED and be at least 18 years old. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

37. MILLWRIGHT**Job Description:**

A millwright is a construction mechanic whose skills include moving, leveling, aligning, installing, and repairing large machinery. Millwrights also rig, erect, and splice belts; clean, lubricate, and replace gears; and fabricate, install, and repair conveyor systems, turbines and generators, and automated systems.

Length of Apprenticeship:

Four years

Labor Market Forecast:

70 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Millwrights in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$35.04 and an average yearly salary of \$72,883.

JAC Apprenticeship School:**Millwrights 1102 Apprenticeship and Training**

27555 Mound Road

Warren, Michigan 48902

(586) 573-4660 (Director)

Applicant Requirements:

A high school diploma or GED is required. Applicants must be a minimum of 18 years of age with U.S. citizenship. A driver license and reliable transportation to travel throughout the southern half of Michigan are required. Applications must be picked up by the applicant, usually during the beginning of the year for two weeks only. Please phone in late December/early January for the exact time and date.

College Admission Requirements:

Applicants must be a high school graduate or a GED recipient and 18 years of age or older. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

38. OPERATING ENGINEER**Job Description:**

Operating engineers operate and maintain heavy and portable construction equipment, including bulldozers, excavators, scrapers, graders, loaders and cranes. They use this equipment as they dig, haul, and level operations to build roads; excavate materials for basements and footings; excavate sewer, pipelines, and utility trenches; unload heavy material on building projects; and maintain machinery.

Length of Apprenticeship:

6,000 hours of classroom/hands-on training.

Labor Market Forecast:

240 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Operating Engineers in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$23.57 and an average yearly salary of \$49,000.

JAC Apprenticeship School:**Operating Engineers Joint Apprenticeship Training Fund, Inc.**

(JATF)
275 E. Highland Road
Howell, Michigan 48843
(517) 546-9610 (Coordinator) (www.oe324jatf.org)

**Applicant Requirements:**

Apprentice applicants must be high school graduates or possess a GED certificate, and they must be at least 18 years old at the time of application. Michigan residency is required. Applicants must have reliable transportation and possess a Michigan driver's license. They also must pass a physical examination, meet drug screening requirements and take a written aptitude test.

39. PAINTER

Job Description:

Painters prepare the surfaces of buildings and other structures and then apply paint, varnish, enamel, lacquer, and similar materials to these surfaces. A painter is adept at handling brushes and other painting tools in order to apply paint thoroughly, uniformly and rapidly to any type of surface.

Length of Apprenticeship:

Three years

Labor Market Forecast:

200 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Painters in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$18.80 and an average yearly salary of \$39,100.

JAC Apprenticeship School:

Painters Apprentice School
14587 Barber Street
Warren, Michigan 48088
(586) 552-4481 (Coordinator)

Applicant Requirements:

Applicants must possess a high school diploma or a GED. They cannot be color blind nor have an aversion to heights.

40. PHARMACY ASSISTANT/TECHNICIAN

Job Description:

Pharmacy assistants prepare medications under the directions of a pharmacist. These technicians may mix, count out, label, and record amounts and dosages of medications.

Length of Apprenticeship:

Varies

Labor Market Forecast:

600 annual openings in the Detroit Metropolitan Statistical Area.

Average Hourly/Yearly Wage:

Pharmacy assistants in the Detroit Metropolitan Statistical Area earn an average hourly wage of \$14.94 and an average yearly salary of \$31,100.

Vocational-Technical Center and Other Programs for Pharmacy Assistants:

CVS Pharmacy/Wayne County Community College
Regional Learning Center
5901 Conner
Detroit, Michigan 48213

College Admission Requirements:

Applicants must be a high school graduate or a GED recipient and 18 years of age or older. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

45. RENEWABLE ENERGY/ALTERNATIVE ENERGY TECHNICIAN **GREEN TECHNOLOGY!!!!!!**

Job Description:

The renewable energy/alternative energy sector includes careers that relate to developing and using such energy sources as solar, wind, geothermal, and biomass. This sector also includes traditional, non-renewable sources of energy undergoing significant green technological changes (e.g., oil, coal, gas, and nuclear).

Note: While not the traditional apprenticeship program, this course is structured to lead to an apprenticeship. In some cases there are up to 576 contact hours with an employer where the employer controls the curriculum. The Energy Technology - Renewable Energy Advanced Certificate, Energy Technology - Renewable Energy Basic Certificate, and Energy Technology/Alternative Energy Associate in Applied Science degree are designed to introduce students to the new emerging fields of Renewable/Alternative Energies. These programs will expose individuals to the many new jobs that are opening in this field and that relate to different types of non-traditional energy efficient power generation, heating and cooling, alternative automotive propulsion, "Green" construction and energy related savings through better usage and design. These programs are not engineering programs; instead they are general technical career/general education programs that focus on exposure to renewable/alternative energies.

Length of Apprenticeship:

N/A

Labor Market Outlook:

No data available yet.

Average Hourly/Yearly Wage:

No data available yet.

College Admission Requirements:

Applicants must be a high school graduate or a GED recipient and 18 years of age or older. College admission does not guarantee enrollment in this apprenticeship program, which may require additional qualifications that the Apprenticeship Coordinator can identify.

SECTION V

SCHOOL-TO-REGISTERED APPRENTICESHIP PROGRAMS

High school students who are at least 16 years of age can enroll in a School-to-Registered Apprenticeship (STRA) program. These students work for an employer during the summer between their junior and senior years. During their senior year, students work part-time for the employer. This part-time work arrangement is similar to a co-op program, which can become a STRA. After graduating, the apprentice becomes a full-time employee and continues his/her education at a community college or an apprenticeship school.

School-to-Registered Apprenticeships are available in numerous occupations, including auto technicians, auto body repairers, and electricians. If you or someone you know would like more details, please contact one or more of the following STRA Coordinators at the following addresses and telephone numbers:

Oakland County:

Oakland Schools

2111 Pontiac Lake Road
Waterford, Michigan 48328
(248) 209-2590

St. Clair County:

St. Clair County Regional Educational Service Agency

499 Range Road
P.O. Box 1500
Marysville, Michigan 48040
(810) 455-1010

Wayne County:

William D. Ford Career-Technical Center

36455 Marquette Avenue
Westland, Michigan
(734) 419-2116

SECTION VI

GLOSSARY OF KEY TERMS

Brief definitions for key terms used throughout this booklet follow:

Apprenticeship:

A combination of on-the-job training and related classroom instruction through which workers learn the practical and theoretical aspects of a highly skilled occupation.

Office of Apprenticeship (OA):

An office of the U.S. Department of Labor that approves occupations for apprenticeships and awards successful apprenticeship completers a Certificate of Completion.

Detroit Metropolitan Statistical Area (MSA):

MSAs are designated and defined by the U.S. Department of Commerce, so that local economic and social statistics can be presented on a common geographic basis. The Detroit MSA consists of the following counties: Wayne, Oakland, Macomb, Livingston, Lapeer, and St. Clair.

Joint Apprenticeship Committee (JAC):

A JAC represents a partnership between a labor organization and an employer or an employer group. Individuals apply for an apprenticeship through the JAC for a given occupation.

Michigan Apprenticeship Steering Committee, Incorporated (MASCI):

MASCI advises the Office of Apprenticeship's Michigan Office and provides a forum through which the apprenticeship community can express, discuss, and promote ideas for the improvement and maintenance of Michigan's apprenticeship system.

Michigan Department of Energy, Labor and Economic Growth (MDELEG):

Among its other responsibilities, the MDELEG administers workforce development programs for the State of Michigan.

Michigan Works! Agencies (MWAs):

MWAs are geographic areas the Governor has designated throughout Michigan to administer and operate workforce development programs. The following MWAs have been designated in the Detroit MSA: the Southeast Michigan Community Alliance (SEMCA), which includes Wayne County (excluding Detroit) and Monroe County; the City of Detroit; Oakland County; Macomb/St. Clair Counties; the Thumb Area; and Livingston County.

Michigan Works! Service Centers:

Service Centers are one-stop offices that are located throughout the State, and that offer job seekers and employers numerous workforce development programs and services. In Oakland County, Michigan Works! Service Centers are located in Ferndale, Highland, Novi, Oak Park, Oxford, Pontiac, Southfield, Troy, and Waterford.

Oakland County Workforce Development Division:

The Division administers workforce development programs for the Oakland County Michigan Works! Agency, under the joint purview of the Oakland County Workforce Development Board and the Oakland County Executive.

School-to-Registered Apprenticeship Program (STRA):

High school students who are at least 16 years of age can enroll in a School-to-Registered Apprenticeship Program that begins when they are in school and continues after their graduation.

U.S. Department of Labor (USDOL):

Among its other responsibilities, the USDOL administers workforce development programs. The Office of Apprenticeship is a part of the USDOL.

SECTION VII
