**Subject:** RE: Facilities Management Web Site ||| Prioritization Vote = Results

Good Morning and thanks to all for your quick responses to the three on-line votes.

The prioritization vote is in and the result:

"Do you approve of prioritizing the Facility Management Web Site project at the **new #14**?"  
**10 VOTES = Unanimous YES**

Therefore we have a sized, prioritized, funded and approved project.  
Good luck in delivering this project OCIT & FM&O.

Janette, I trust you will arrange to update the appropriate Land Leadership and/or Master Plan documents to reflect the creation of this new project? If not, please advise on the appropriate next steps.

**Kevin R. Larsen**
