NOTICE TO PETITIONER REQUESTING ASSISTED OUTPATIENT TREATMENT

Once you have filed your *Petition for Assisted Outpatient Treatment*, it becomes the Probate Court's responsibility to cause notice of the petition and hearing to be given to the individual who you believe is in need of treatment. A Mental Health professional from Common Ground will: 1) meet with the individual to assess the situation, 2) serve him/her personally with a copy of your Petition and the *Notice of Hearing* and 3) prepare a *Proof of Service* for the court file. If there is insufficient information to locate and serve the individual, be aware that the petition must be dismissed or adjourned.

Therefore, the court requests the following information so that Common Ground can locate and serve the individual. **Please fill out as much of the information as possible.** This document will **NOT** become part of the probate court legal file. Thank you.
