

Instructions for viewing the Highway Sustainability Checklist

To view the excel file, people may need to adjust the security setting to allow macros. Please follow the instructions below.

1. Save the Excel file to your hard drive
2. Open a blank workbook in Excel
3. In Excel, go to Menu Item "Tools," then select "Options," and select the "Security" tab. Click on the "Macro Security" button on the lower right side. Set to "medium" and Click "OK" to save changes.
4. Open checklists from hard drive.
