# LOCK UP YOUR FIREARMS

## Store your gun safely and securely

- ➔ Store firearms locked and unloaded
- ➔ Ammunition should be locked and stored in a separate location
- ➔ Seek instruction on proper handling and storage
- ➔ Hiding guns where you think children or others won't find them is NOT enough
- ➔ Toddlers do have the finger strength to pull the trigger
- ➔ A firearm's safety is not designed as a replacement for safe storage or handling practice

## If a family member or friend appears suicidal or depressed, consider temporary off-site storage

- ➔ When an emotional crisis or a major change in someone's behavior causes concern, storing firearms outside the home may save a life
