Brownfield Redevelopment Authority

PROGRESS REPORT

8 projects

More than
\$270 million
in new investment

1,900
projected new jobs

\$45 million
in increased taxable value
of property

More than
300 acres
of contaminated property
cleaned and repurposed
for productive use

Iron Ridge Redevelopment, Ferndale and Pleasant Ridge

A Message From Oakland County Executive L. Brooks Patterson

Since its start in 2001, the Brownfield Redevelopment Program has made a dramatic positive impact that will have a lasting legacy in Oakland County.

At its core, the program has a dual purpose. It seeks to improve the quality of life for our citizens by protecting the unique environmental features of the county and also allows for redevelopment of our cities and lands.

The brownfield program ensures the development of sustainable communities through remediation and reinvestment in contaminated and abandoned properties. By partnering with private investors, our communities increase their tax base, facilitate job growth and utilize existing infrastructure — breathing new life back into areas that were unusable.

A Message From The Oakland County Brownfield Redevelopment Authority Chairman Peter Webster

We have been hard at work reviewing and approving great redevelopment projects in Oakland County. During the last three years, the board has reviewed and approved eight projects, all highlighted in this report.

These projects have resulted in over \$270 million in new investment with over 1,900 expected new jobs. The projected increase of the taxable value of the properties is over \$45 million. More importantly and consistent with a main purpose of our redevelopment mission, more than 300 acres of contaminated property have been cleaned through private investment. In other words, about the same amount of land as Springfield Oaks County Park has been cleaned up and repurposed to productive use.

Our Oakland County Executive L. Brooks Patterson, with the consent of the Oakland County Board of Commissioners, has appointed one of the most qualified Brownfield Redevelopment Boards in Michigan. We hold project applicants to a high standard and look out for the county's taxpayers.

We are supported by an exemplary Oakland County staff that works collaboratively with state of Michigan agencies and our local communities. Our success for the residents and businesses of Oakland County would not be possible without the high quality people on our team.

We look forward to our upcoming projects and the continued efforts to make Oakland County the best county in which to live, work, play and prosper.

Oakland County Brownfield
Redevelopment Authority
(OCBRA)

Board of Directors

*(Appointments as of
February 1, 2017)*

Brad Hansen

Brownfield Program Coordinator

David Woodward

Oakland County Board of Commissioners - District 19

WELL OVER 100 YEARS OF EXPERIENCE W/ THE BROWNFIELD PROGRAM AND BROWNFIELD REDEVELOPMENT AUTHORITIES

Previous OCBRA Board Members (with years served)

Tim Burns, former Oakland County Commissioner (2008-2009)

David Coulter, former Oakland County Commissioner (2005-2008)

Hugh Crawford, Oakland County Commissioner – District 9 (2007-2009)

Douglas Etkin, Principle, Etkin Real Estate/Solutions (2001-2009)

Thomas Law, former Manager, Oakland County Waste Resource Management (2004-2008)

Martin Seaman, former Manager, Oakland County Waste Resource Management (2001-2004)

Doug Smith, former Director of Real Estate Development, City of Troy (2001-2007)

MEDC APPROVED \$2,932,256

MDEQ APPROVED \$941,917

FORMER GENERAL MOTORS - TRUCK AND
BUS PRODUCTION FACILITY (45 ACRES)
2501 CENTERPOINT, PONTIAC

Challenge Manufacturing Company – Pontiac Automation and Assembly

Investment

\$52.5 million

Size

450,000 sq. ft.
industrial building

Jobs Created

400 full time

Tax Base Before

\$306,390

New Tax Base

\$592,470 to date

Eligible Activity

TIF – \$5,005,250

BROWNFIELD CONDITIONS

Since the 1970's, property had historically been used for automotive manufacturing operations, including:

- Bulk petroleum storage, above and underground, in small containers to large storage tanks. Petroleum compounds included gasoline, diesel fuel and various hydraulic oils (axle lubricant, transmission fluid, etc.)
- Painting operations generated solid and liquid wastes containing solvents
- Subsurface assessment results at the property identified various contaminants in soil and groundwater above MDEQ Part 201 generic residential cleanup criteria and screening levels. As defined by Part 201, the exceedance of the criteria indicates the property as a "facility"

REDEVELOPMENT

- A 450,000 sq. ft. assembly plant
- Investment estimated at \$52.5 million
- Required baseline environmental assessment, due care, site demolition, site preparation and additional response activities to prepare for vertical construction

MEDC APPROVED \$7,963,274

MDEQ APPROVED \$5,213,345

HISTORIC FORMER GENERAL MOTORS - PONTIAC WEST
ASSEMBLY PLANT - DATING BACK TO 1909 (80 ACRES)
200 SOUTH BOULEVARD WEST, PONTIAC

Investment

\$43 million to date

Size

200,000 sq. ft. industrial building
for 192 car condominiums

Jobs Created

12 full time jobs created to date
Hundreds more once commercial and office
phases are finished

Tax Base Before

\$412,710

New Tax Base

\$11,477,700 to date
\$13 million estimated when finished

Eligible Activity

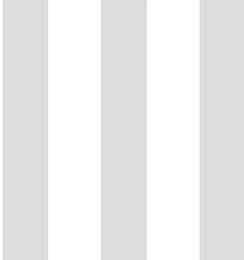

TIF – \$14,739,154

BROWNFIELD CONDITIONS

- Property is eligible for inclusion in this brownfield plan because the property is in the city of Pontiac, a qualified local governmental unit, and the five parcels are “facilities” as defined by 1994 P.A. 451, as amended. The presence of contaminants at levels greater than generic residential use criteria was demonstrated by the results of environmental assessments
- 30,000 sq. ft. area of light non-aqueous phase liquid was identified in the south central portion of the property. A fingerprint analyses identified it as a middle-distillate fuel
- Groundwater impacted with trichloroethene was identified near the northwest corner of the property — the concentration exceeds Part 201 Nonresidential Drinking Water Criteria
- Multiple volatile organic compounds and metals were measured in soil and groundwater at concentrations above Part 201 Nonresidential Criteria at numerous locations across the property

FORMER GENERAL MOTORS - PLANT 25 (48 ACRES)
225 EAST COLUMBIA, PONTIAC

Dan's Excavating

BROWNFIELD CONDITIONS

- Property was used for disposal of non-salvageable wastes related to engine assembly, car assembly, foundry, painting, stamping, engine machining, metal plating, wastewater treatment and direct disposal of incinerated materials from 1920s to 1970s
- Was occupied by General Motors chassis parts and machining plant and engine plant from the 1960s until vacated in 2008
- A former 20,000-gallon gasoline underground storage tank was located northwest of the former building
- A former 1,000-gallon gasoline above-ground storage tank was located northwest of the former industrial building
- In western portion of former industrial building: Oil storage area, paint booth and sump area in basement contained a sludge tank, pumping system, floor sumps and process pits
- Eastern portion of former industrial building had sump area and process pits in the basement
- Various volatile organic compounds and metals were identified above MDEQ Part 201 and/or Part 213 Drinking Water Protection and/or Groundwater Surface Water Interface Protection
- Lead was detected above industrial direct contact
- Additionally, 2,3,7,8-tetrachlorodibenzo-p-dioxin was reportedly above EPA Toxicity Equivalent

REDEVELOPMENT

- Prepare the existing property for new build of a 12,000 sq. ft. office and truck repair facility in the southwestern portion of property
- Truck storage and staging use in other parts of property

A photograph of a large industrial building with a grey lower section and a tan upper section. The building has several windows and a gabled roof. In the foreground, there are some trees and a utility pole. A large orange graphic consisting of several overlapping diagonal lines is in the bottom right corner. The background is a clear blue sky.

Investment

\$1.75 million

Size

13,000 sq. ft.
industrial building

Jobs Created

35 full time

Tax Base Before

\$108,360

New Tax Base

\$341,570 to date

Eligible Activity

TIF – \$424,000

MEDC APPROVED \$2,296,325

MDEQ APPROVED \$617,355

FORMER RACER TRUST FACILITY (3.66 ACRES)
65 EAST UNIVERSITY, PONTIAC

George W. Auch

Construction Headquarters

V

BROWNFIELD CONDITIONS

- Parcels that comprise the eligible property are a facility and vacant land, covered with asphalt, concrete and portions of a former building floor pad
- Buried culvert for Clinton River bisects the parcel from north to south — which makes building over that portion impossible

REDEVELOPMENT

- Auch will transform the eastern portion of the property to serve as its new 20,000 sq. ft. headquarters, a 21st Century work space in the heart of downtown Pontiac with walkable access to many urban amenities
- Will keep surrounding 3-1/2+ acres as open urban meadow and green space at eastern entrance to downtown
- Is exploring ways to use the green space for special ceremonies and events in Pontiac, supporting city renewal goals

Investment
\$5.6 million

Size
20,000 sq. ft.
office building

Jobs Created
10 full time

Tax Base Before
\$20,330

New Tax Base
Projected
\$1.3 million

Eligible Activity
TIF – \$3,641,000

“Our experience working with the Oakland County Brownfield Redevelopment Authority was extremely positive. The process was well defined and with the guidance and support of the county’s brownfield coordinator, we were able to maintain our scheduled timeline and keep the project on track. The board was very supportive and paved the way for the required approvals from other governmental agencies necessary for the success of our development.”

Vince DeLeonardis, *President of Auch Construction*

MEDC APPROVED \$750,000

FORMER MANUFACTURING PLANT -
DATES BACK TO 1924 (11.2 ACRES)
**366, 400 AND 500 EAST SOUTH
BOULEVARD, PONTIAC**

Rivore Metals

VII

BROWNFIELD CONDITIONS

- Property contains multiple contaminants at concentrations above the Part 201 Generic Residential Cleanup Criteria
- Laboratory analytical results showed that the property meets the requirements for classification as a “facility” under Section 20101 of NREPA Act 451, Part 201, as amended
- Chemicals that were detected in soil at concentrations exceeding one or more generic Part 201 criteria include: Arsenic, Barium, Benzene, 1,1-Dichloroethene, Ethylbenzene, Methylene Chloride, 2-Methylnaphthalene, Naphthalene, Phenanthrene, Selenium, Trichoroethylene, 1,2,4-Trimethylbenzene, Vinyl Chloride, Xylenes and Zinc

Investment

\$6 million

Size

11.2 acres, 105,200 sq. ft.
of industrial space,
three buildings

Jobs Created

40 full time and
40 more projected

Tax Base Before

\$234,630

New Tax Base

Projected
\$1.9 million

Eligible Activity

TIF – \$1,824,600

REDEVELOPMENT

- Locally-based company is able to expand operations in Oakland County
- Multi-phase development project includes:

Site infrastructure and demolition of existing property

Reuse and new construction of three warehouse buildings totaling 105,200 sq. ft.

MEDC APPROVED \$3,531,500

MDEQ APPROVED \$3,031,227

Iron Ridge Redevelopment

FORMER WALKER WIRE MANUFACTURING -
DATES BACK TO MID-1940s (13 ACRES)
10 MILE AND BERMUDA, FERNDALE
AND PLEASANT RIDGE

BROWNFIELD CONDITIONS

- The parcels comprising the property determined to be a “facility” and/or adjacent and contiguous to a “facility”
- Groundwater analytical results identified concentrations of the following that were all above various Part 201 residential and nonresidential cleanup criteria: Tetrachloroethylene/Trichloroethylene, Benzene, various petroleum volatile organic compounds, Benzo(a)pyrene, Fluoranthene and/or Phenanthrene, Polychlorinated Biphenyls, Chromium and Vinyl Chloride

- Contaminant concentrations identified on the Property identified as 660 East 10 Mile Road, 3155-3351 Bermuda Street and 400 East 10 Mile Road indicate exceedances to the Part 201 Residential and Nonresidential Drinking Water Protection/Drinking Water (DWP/DW), Groundwater Surface Water Interface Protection/Groundwater Surface Water Interface (GSIP/GSI), Direct Contact (DC) cleanup criteria and Vapor Intrusion Screening Levels; therefore, the property is a “facility” under Part 201
- Contaminant concentrations identified on the property identified as 404 East 10 Mile Road indicate exceedances to the Part 201 residential and nonresidential DWP, GSIP, Soil Volatilization to Indoor Air Inhalation, Ambient Air Volatile Soil Inhalation, Particulate Soil Inhalation, and DC cleanup criteria. Therefore, the subject property is a “facility” under Part 201 of P.A. 451, as amended, and the rules promulgated thereunder

Projected

Ferndale - \$3,624,950

Pleasant Ridge - \$2,443,400

Eligible Activity

TIF – \$6,563,000

REDEVELOPMENT

OWNER: IRON RIDGE HOLDINGS, LLC

- Project entails extensive renovation of a former, dilapidated industrial building and surrounding property for reuse as an inclusive multi-use campus
- The nearly 70,000 sq. ft. vacant industrial building that anchors the campus will be transformed into a market space, beer garden and brewery and provide additional office and commercial space
- Campus will include the renovation of three additional buildings occupied by tech offices, professional offices, a fitness center and commercial space
- The construction of new apartment complexes to complement the site are also proposed along the eastern portion
- Together, the existing building space and proposed new build totals approximately 231,000 sq.ft.
