OAKLAND COUNTY SOLID WASTE PLANNING COMMITTEE MEETING

Wednesday, March 26, 2014, 1:00 PM
Oakland County Executive Office Building
East Conference Room

ADDRESS: Building 41W, 2100 Pontiac Lake Road
Waterford, Michigan 48328

REPORTER: Debbie McCarroll, CSR-5871
SOLID WASTE PLANNING COMMITTEE MEMBERS PRESENT:

COMMISSIONER ROBERT HOFFMAN, Chairman

STEVEN BALAGNA, General Public Representative

MIKE CSAPO, RRRASOC

ROBERT DePALMA, Groveland Township Supervisor

CLAIRE GALED, City of Huntington Woods

JEAN GRAMLICH, Sierra Club

AMY MANGUS, SEMCOG

JOHN MYERS, Waste Management

STEVEN PERCIVAL, General Public Representative

MARY ANN RYAN, General Public Representative

ANNE VAARA, Environmental Interest Representative

ED MAMOU, Waste Generator Representative

SOLID WASTE MEMBERS ABSENT (with notice): Sanford Rosen

OAKLAND COUNTY STAFF PRESENT:

MATTHEW GIBB, Deputy County Executive

DAN HUNTER, Oakland County EDCA

WHITNEY CALIO, EDCA

BRET RASEGAN, EDCA

AHMAD ROBY, Corporation Counsel

TONY DRAUTZ, OCHD

DONNA FOLLAND, OCPRC
CHARLOTTE BURCKHARDT, EDCA
HELEN HANGER, Oakland County BOC
JIM VERPLOEG, Oakland County BOC

OTHERS PRESENT:

DENNIS COWAN, Plunkett Cooney
JOSEPH MUNEM, Rizzo Environmental Services
CHARLES RIZZO, Rizzo Environmental Services
GREG RICHARDS, Baldwin East/West Blk Club
KATIE SCHLUTOW, Bloomfield Township
DEIRDRE WATERMAN, Mayor of Pontiac
LUCIUS VASSAR, Clark Hill PLC
RICK MANCZAK, Varnum LLP
BILL FRITZ, Waterford Township
COMMISSIONER HOFFMAN: All right, I'd like to call to order the meeting of the Oakland County Solid Waste Planning Committee. And I'd like to ask Whitney to please call roll.

MS. CALIO: Steven Balagna.
MR. BALAGNA: Present.
MS. CALIO: Mike Csapo.
MR. CSAPO: Here.
MS. CALIO: Bob DePalma.
MR. DePALMA: Here.
MS. CALIO: Claire Galed.
MS. GALED: Here.
MS. CALIO: Jean Gramlich.
MS. GRAMLICH: Here.
MS. CALIO: Commissioner Hoffman.
COMMISSIONER HOFFMAN: Here.
MS. CALIO: Kevin Kendall. Amy Mangus.
MS. MANGUS: Here.
MS. CALIO: John Myers.
MR. MYERS: Here.
MS. CALIO: Steven Percival.
MR. PERCIVAL: Here.
MS. CALIO: Mary Ann Ryan.
MS. RYAN: Here.
MS. CALIO: Sandy Rosen is absent with notice. Anne Vaara.
MS. VAARA: Here.
MS. CALIO: Ed Mamou.
MR. MAMOU: Here.
MS. CALIO: Okay, we have a quorum.
COMMISSIONER HOFFMAN: Thank you, Whitney. I'd also like to remind everyone in the audience, there is a sign-up sheet that will be passed around. If you haven't signed up at the door, we'll just pass it around, and please sign in.
We have before us the minutes and the transcript of our public hearing on February 26, 2014. I'd entertain a motion to file and receive and approve those minutes.
MS. GRAMLICH: So moved.
MR. DePALMA: I'll second.
COMMISSIONER HOFFMAN: Any discussion? All those in favor, signify by saying aye.
ALL COMMITTEE MEMBERS: Aye.
COMMISSIONER HOFFMAN: Opposed to the same? We have before us our agenda today. Are there any additions, deletions or corrections anyone would like to offer? Hearing none, I'll entertain a motion then to approve the agenda as presented.
MS. GALED: So moved.

MR. DePALMA: Second.

COMMISSIONER HOFFMAN: All those in favor, signify by saying aye.

ALL COMMITTEE MEMBERS: Aye.

COMMISSIONER HOFFMAN: Motion carried. Before we get started on our unfinished business, I want to take a moment to thank Mayor Waterman who is here today, Deirdre Waterman --

MAYOR WATERMAN: Thank you.

COMMISSIONER HOFFMAN: -- and the six Council Members who voted in favor of this Resolution, I believe it was on Monday night; Patrice Waterman, Mary Pietila, Kermit Williams, Doris Burk Taylor, Don Woodward and Randy Carter.

All right, the next item on our agenda then is review and discuss the comments we received during the 90-day period. All Board Members received a copy. Are there any comments or discussion regarding those?

MR. BALAGNA: I guess I'll address one thing.

COMMISSIONER HOFFMAN: Go ahead, Steve.

MR. BALAGNA: I am going to propose a Resolution that takes care of at least one of the comments from Billy -- I don't know if it's Swazer or Swasser -- talking about the deal for two locations. I think it's very clear here that we only have, the applicants really only propose one location...
now, which is the 900 Baldwin Avenue.

COMMISSIONER HOFFMAN: Okay, that's correct.

MS. GRAMLICH: I would like to ask -- it's my understanding that the Agreement with Pontiac has been renegotiated. I was very concerned about that Agreement, thought it did not give Pontiac enough, and wonder if someone could give us a summary of the changes.

COMMISSIONER HOFFMAN: Go ahead, Mr. Cowan.

MR. COWAN: Mr. Chairman, would the best place to stand be near the stenographer?

COMMISSIONER HOFFMAN: She appreciates that.

MR. COWAN: I've only had to testify once. I've usually been on the other side of the aisle on that.

Mr. Chairman and Members of the Committee, thank you for that question, Ms. Gramlich. Yes, we've been working since the time of the Public Hearing that you held. As you may recall, some of the Members of the Pontiac City Council voiced their support, but thought, could we do a little better?

And we listened to them. We also listened to you in some previous meetings we had had even as early as last year. There had been some questions about where did the City of Pontiac stand; because, as we all knew, this was a matter legally negotiated with the then Emergency Manager but had never been voted on by the City Council.
We were in an awkward position last year, because they were having an election in the middle of our meetings. And so, the Council at that time did not think it was appropriate to put this up, but let's deal with the folks who were elected. And as you may know, there's a new Mayor, Deirdre Waterman, and three new Council Members.

So, we have worked since that date to as late as this past Monday, and the one change, the only substantial change, quite frankly, in the Agreement was the royalty fees or the host fees. And we're pleased to announce that we negotiated with the City an increase from $.50 per ton to $1.25 per ton, which is $.75. That's 150 percent increase.

Now, there's a couple conditions. I want full disclosure, and they were in the packet that you were given. But, we are confident and so is the City that all those conditions are going to be easily met. They really don't involve any commitment of money by the City of Pontiac; more, it's resolutions and support of some of the things that Rizzo needs to do along the way.

I will tell you that we were very pleased to have a unanimous vote. We did have one abstention. But, we thought that that was a solid, affirmative vote by the City, and we hope that they -- I think they wanted to make a loud and clear statement of where they stood and also to let you know where they stood as a group. And so, that is exactly what
MS. GRAMLICH: Was there any provision for inflation?

MR. COWAN: Yes. And actually, that was already in the Agreement. There was an Amendment in 2013 that included a CPI factor. And if you look at the CPI the last ten years, and if it's consistent going forward, that would be a 20 percent increase over those 10 years.

So, that will continue to grow, as long as CPI and the economy is doing decent. We'll probably have some down years and some up years, but the graph line which we got from the U.S. Department of Labor was kind of upward every year. So, let's hope that continues.

MS. GRAMLICH: Okay.

MR. COWAN: Okay, thank you.

COMMISSIONER HOFFMAN: Do any other Board Members have any questions for Mr. Cowan? John.

MR. MYERS: Yes. I just have a comment. And I'm glad to hear the explanation on the modifications made to the Host Agreement with Pontiac. I know that during the hearing, Councilman Kermit Williams came forward and asked this committee to really, you know, modify the amendment to put something in related to the 99-year lease. But, my only comment is, I don't believe that's the purview of this committee to recommend anything with regard to the relationship between Rizzo and the City of Pontiac.
MR. COWAN: Right. And I want to let you know that Mr. Williams was one of the members of the six that voted for it. So, we hope we met all of his concerns, as well as all the Members of the City Council.

And I do also want to acknowledge, as Chairman Hoffman did, that the Mayor, although she does not vote in Pontiac because that's the setup that they have, voiced her support at the meeting for the change and for the Proposed Amendment. Thank you.

COMMISSIONER HOFFMAN: Thank you. Are there any other questions regarding the comments we received during the 90-day period?

All right. Hearing none, our next item is discussion of any changes to be made to the proposed amendment language. Steve.

MR. BALAGNA: I, by e-mail, sent out to everyone -- in our original packet there was a Proposed Amendment Resolution, and I had made some changes to it and sent them out to all the Members of the Committee and then also passed out one today that I would move.

Basically, I cleaned up some typos, basically made sure or acknowledged there was only one application, that's a Type A Transfer Station, Waste Processing Facility. I basically changed the spelling on that. The things I was trying to do in my changes are the one I already mentioned,
make sure that we're talking about the same piece of property at 900 Baldwin Avenue, and I also called out the 750 ton-per-day capacity of the Type A Transfer Station.

Those were kind of the main things I was trying -- oh, and also, there had been no acknowledgment in the original Resolution about the fact that there was a Host Community Agreement. And I thought that this Committee very much had discussed that and wanted to hear about that. And we've had lots of statements about that, and I wanted to make sure that the Resolution acknowledged that, indeed, there was a Host Community Agreement.

And finally, just a little tweak in the process that it goes from this committee, to the County, to the committees. I think it was assumed that it went from this committee to the County, but I just spelled it out that that, indeed, is what happens.

MR. DePALMA: But, you just said 750 tons.

MR. BALAGNA: No, I'm sorry.

MR. DePALMA: You mean, 1750.

MR. BALAGNA: 1750.

MR. DePALMA: Okay.

MR. BALAGNA: Please, it's written down 1750. Yeah, you can get up off the floor -- 1750. 1750. Excuse me. That is what is in the application, and that is what is in the Resolution.
COMMISSIONER HOFFMAN: Does anyone on the Committee have anything they want to add to Steve's Proposed Amendment to the Amendment?

MR. MYERS: I just have a question. Just, do we have 60 or 61 units of government in Oakland County?

COMMISSIONER HOFFMAN: I thought there was 61.

MS. CALIO: But, the City of Northville is not included in the Oakland County Plan, because they're in the Wayne County Plan. So, that's why the difference.

COMMISSIONER HOFFMAN: Oh. So, 60 is correct?

MS. CALIO: That's how many will be given the --

COMMISSIONER HOFFMAN: -- the opportunity to vote on this Amendment to our Plan.

MR. BALAGNA: Right, right. That's correct.

COMMISSIONER HOFFMAN: Okay. Thanks, Whitney. Claire?

MS. GALED: I just would like to know whether this is the appropriate time to suggest that we consider, instead, the Resolution that I have put forth, which basically does the exact same thing except adds a paragraph asking, recommending to Oakland County that they open up the Solid Waste Management Plan for review and according to the requirements by the State of Michigan.

COMMISSIONER HOFFMAN: Yeah, I think it would be appropriate to introduce an Amendment to Steve's plan, if nobody has a problem with Steve's Resolution.
MR. BALAGNA: If I can address that then first?

COMMISSIONER HOFFMAN: Go ahead.

MR. BALAGNA: I would not want that Amendment to my Proposal, and here's why.

I think our task -- well, first of all, the general concept of the County needing to update its plan, which it hasn't done for a number of years, is something I definitely agree with. The problem, of course, has been money.

I represent the general public, and so I suppose I can look at myself personally and say, I am here today with no salary, no benefits, nobody paying for my transportation. And, in fact, when I go and draft these resolutions, on one paid me for that, either. It's all about the money. The State hasn't given the counties any money, and the County hasn't had any money to do general planning, which is why it hasn't happened.

And I understand from your earlier e-mail about suggesting, you know, we move resources around and stuff like that. For all of those issues, I would suggest that anybody who feels that way, go to one of the County Commissioner Meetings and ask the County Commissioners to do exactly that.

I think what we've been charged with here is to consider a Proposed Amendment of the Plan, the application, and that's exactly what we've done. The application is to deal with the
Proposal before us, and my Resolution addresses the proposal before us.

I think the other issue, in terms of general planning, and whether or not the County should start up and have them spend the money to have a new plan, I think is outside the purview of what the Committee is doing right now.

COMMISSIONER HOFFMAN: Thanks, Steve. I'm just throwing this out for consideration by this Committee. But, maybe what we could do is have two resolutions; one that would stay focused on your resolution to move this process forward, and then have Claire's resolution separate from that, but we could all have an opportunity to add to it or subtract from it and vote on it and then send that on to the Board of County Commissioners.

Then, we keep this process going, but you have two different resolutions, and we accomplish the same thing. But, I want to hear what the other Board Members have to say.

MS. GRAMLICH: I absolutely agree with doing it that way.

COMMISSIONER HOFFMAN: Okay. Claire.

MS. GALED: I would simply remark that we are being asked to make a change to a Plan that has not been reviewed in a number of years. In the letter that Rizzo submitted, they themselves indicate an overabundance of transfer space.
They talk about transfer stations that not being used or underutilized. So, they themselves have noted that our Solid Waste Plan handles more transfer capacity than is needed.

I just think that for us to move ahead without taking a look at the entire plan is foolhardy and is not a fair movement on the part of this Board and our responsibility to the residents of Oakland County.

What we are saying when we pass this Resolution is, we're telling Oakland County that we know for certain that there is not sufficient transfer capacity in this County. I don't know if that's true, or not. We've not looked at it, nor has the County.

And while I understand that there is some cost, I think Mike Csapo's e-mail to most of us that this has been done at a fairly inexpensive cost to other counties, and a good number of counties in the State of Michigan have done this. It is required by law. And I don't understand why Oakland County, why we are so afraid of combining these two things as part of a resolution going forward.

MS. MANGUS: I agree with --

COMMISSIONER HOFFMAN: Amy.

MS. MANGUS: -- having two separate resolutions.

COMMISSIONER HOFFMAN: Okay.

MS. MANGUS: And I'm not ready to vote on a second one.
I'm ready to vote today about what we've been meeting about but not about that recommendation to the County Commissioners about opening up the Plan.

I think staff -- we would have to have a separate meeting, where staff would have time to prepare, look at the Plan and be able to present to us, you know, their interpretation of if the Plan needs to be opened or not opened up. I wouldn't be ready to vote today to say that it should be for sure.

COMMISSIONER HOFFMAN: All right. Any other Board Members like to weigh in? Steve? Or, I mean, Mike?

MR. CSAPO: Well, John had his hand up first.

COMMISSIONER HOFFMAN: Oh, John.

MR. MYERS: Well, you know, updating the Solid Waste Management Plan begins with the County Commission, and they prepare a Letter of Intent to the State of Michigan. That's where it begins. And then, they typically will convene a committee specifically for that, that express purpose of updating. So, to update -- you know, to make the recommendation is really not the purview of this Committee.

COMMISSIONER HOFFMAN: Mike.

MR. CSAPO: Well, I would actually disagree with that. You know, the Solid Waste Planning Committee's charge is certainly to consider the Amendment that was proposed.
But, you know, the Solid Waste Planning Committee has a broader purpose, and that's to look at the County's Solid Waste Management Plan.

And, when we are considering this Amendment and future amendments, it behooves us to be able to avail ourselves of the latest data sets, the latest assessment of existing infrastructure, the latest circumstances with regard to activities that occur within the County. And we certainly don't have that at our disposal for reviewing this particular plan.

It's also, I think, important for us to recognize -- and I mentioned this at a previous meeting -- the purpose behind the solid waste planning that's done at the county level and the state, to begin with, is to allow the development of facilities to handle waste within the County, primarily over the objections of local communities.

I mean, that's why this County-based planning process was put into place, so that landfills could be established, and landfills could be expanded, and we had adequate disposal capacity, even though a particular community may not want that landfill or that expansion within their community.

What we have before us with this particular proposal is something completely different, in fact, the opposite of that. We have an applicant that wants to do something, and we have all this community that's in agreement with that.
So, you know, the process through which we've gone for this particular amendment request is not necessarily consistent with the original intent of why this committee and the law was established in the first place. The process that we followed has been consistent with the process and the law, however, and consistent with what the County has done in the past.

Having said that, presume we get an application in the future that we feel has merit, but the Host Community doesn't want that? Or, what if the Host Community doesn't want that, and we have to disagree with the applicant's assessment that it's merited?

We have no basis upon which to make those judgements, because we have a plan that's over a decade old. And so, I think it's entirely within the purview of this Committee to recommend to the County and the Administration to consider going through an amendment process. It would actually be an update via the amendment process, because we can't do an update, unless the State calls for them, but we can do an amendment that looks like an update. And, again, neighboring counties have done that as recently as last week, submitted a plan to the County that was updated through the amendment process.

I think it's time for Oakland County to exhibit some leadership in this regard, instead of being reactive and
reactionary to planning and solid waste and recycling matters in this state.

And this County prides itself on being progressive, taking a proactive stance with regard to planning and economic development. In regards to solid waste, we've largely done exactly the opposite of that.

And so, I think it is appropriate for this Committee to recommend to the County Board of Commissioners that they consider going through an amendment process to update the Plan, so it's consistent with best practices and we have a current evaluation of solid waste management activities within the County and assessment of the infrastructure available to meet the needs of our citizens here in the County.

Having said that, I don't think that this particular Amendment ought to be delayed, to allow that process to take place. I am supportive of Claire's idea of including that recommendation to the County Board of Commissioners and the Administration, to move forward with our recommendation on this particular Amendment.

But, if it's not the view of the majority of this Committee, I think it's entirely appropriate for us to have a second action on this at this table to recommend that the County Board consider going through the process to update the Plan.
COMMISSIONER HOFFMAN: Thank you, Mike. Any other Board Members? Anne.

MS. VAARA: Yes. I'd like to see a separation of the last comment that Claire introduced. I think the Resolution from Steve or Steven is appropriate. I'm not opposed to having a discussion regarding this piece on recommendation to the Oakland County Board, but I think I'd like more information in front of me in order to do that.

COMMISSIONER HOFFMAN: Thanks, Anne. Anybody else?

MS. GALED: I have one more point.

COMMISSIONER HOFFMAN: Claire.

MS. GALED: I would just like to point out that, when you pass something like this, you set a precedent. And so, in Mike's scenario of somebody coming to us and saying, we want to do a transfer station or a landfill in a location that maybe the Host Community likes or doesn't like, that we then -- that they can then point to this as a precedent to this Committee, urging the County to act outside of our Solid Waste Plan. And that is my concern.

I understand the merits of the request, and I fully understand that and why Rizzo wants this; but, I do have concerns as a representative of a municipality in the County of Oakland that we are acting.

COMMISSIONER HOFFMAN: Mike.

MR. CSAPO: Just one more brief comment. You know,
the landscape with regard to solid waste management is changing, and there are advances in technologies, advances in practices, and even within the past five years there's been black-box technologies that deal with waste to energy, and there's in-vessel composting, and there's going to be at some point a sea change in how we treat these waste resources.

And if this County isn't prepared to adequately evaluate proposals to accommodate changing technologies, we're going to be behind the curve. And we'll be in a position where we're not adequately evaluating the applications that come before this County and before our communities and not adequately evaluating whether or not a particular technology or application is appropriate for one of our Oakland County communities; and we will be doing so with a lack of data and a lack of information, again, because we have a plan that's more than ten years old.

COMMISSIONER HOFFMAN: Thanks, Mike. Matt, please.

MR. GIBB: Thank you, Mr. Chairman. For the record, Matthew Gibb, Deputy County Executive. I just wanted to speak to the procedural aspect. So, I find myself in a very good position of agreeing with everyone, particularly with John and Mike.

Procedurally, it would be most appropriate -- and it does not have to be by resolution; it could simply be by
Board action of the Committee itself -- to direct the staff of the Administration to prepare the appropriate procedural and cost estimate information to bring to this Committee to make a more formal recommendation. So, that's one procedural aspect.

The other procedural aspect would be simply to direct us to utilize procedure to go directly to the Board of Commissioners with such a request. It all has to start with the cost estimate and the procedural aspect of having to apply to the State.

So, the Administration would be more than welcome to do that, but I would strongly recommend it be done in a separate action, so that we can take the appropriate resource time with the Board of Commissioners, if that's the desire of the Committee, to make sure that that process is handled appropriately and it does not get commingled with any decision you may or may not make regarding the application -- so, if that makes sense to you.

COMMISSIONER HOFFMAN: Thank you, yes. All right, first I think what we need to do is, since we had a Resolution from the County and then Steve Balagna has forwarded a Resolution with a few changes in it, I'd like to call for a vote that we're going to use -- you know, if somebody wants to make the motion and support it -- that we're going to use the Resolution put forward by Steve Balagna.
Now, we're not voting to move it forward yet. We're just voting on that is the document we're going to use. And then, if somebody wants to make amendments to that, then we'll just keep moving through the process.

MS. MANGUS: I'll move it.

MS. VAARA: Support.

COMMISSIONER HOFFMAN: Okay, it's been moved and supported to use the Proposed Resolution by Steve Balagna. Are there any discussions on that vote? All right. Hearing none, all those in favor signify by saying aye.

COMMITTEE MEMBERS: Aye.

COMMISSIONER HOFFMAN: Opposed, the same.

MS. GALED: Nay.

COMMISSIONER HOFFMAN: Did you say, abstain?

MS. GALED: No. I'm against.

COMMISSIONER HOFFMAN: Oh, okay. All right. Then, the next item on the agenda then is to consider that Resolution, and if anyone wants to make a Resolution to change it or amend it, this is the time to do that.

MS. GALED: I would, again --

COMMISSIONER HOFFMAN: Claire.

MS. GALED: I would like to amend it to include the paragraph that I submitted to you. That would include a recommendation to the Oakland County Board of Commissioners that they proceed with a review of the entire Solid Waste
Plan for Oakland County.

COMMISSIONER HOFFMAN: All right. Is there support for that amendment?

MR. CSAPO: Support.

COMMISSIONER HOFFMAN: It's been moved and supported. Are there any discussions on that amendment? All right, hearing none, I would ask Whitney, please, call the roll -- to amend it, that Resolution put forward by Steve Balagna, to add Claire's Resolution at the end.

MS. CALIO: Steven Balagna.

MR. BALAGNA: No.

MS. CALIO: Mike Csapo.

MR. CSAPO: Yes.

MS. CALIO: Robert DePalma.

MR. DEPALMA: No.

MS. CALIO: Claire Galed.

MS. GALED: Yes.

MS. CALIO: Jean Gramlich.

MS. GRAMLICH: No.

MS. CALIO: Commissioner Hoffman.

COMMISSIONER HOFFMAN: No.

MS. CALIO: Kevin Kendall. Amy Mangus.

MS. MANGUS: No.

MS. CALIO: John Myers.

MR. MYERS: No.
MS. CALIO: Steven Percival.
MR. PERCIVAL: No.
MS. CALIO: Mary Ann Ryan.
MS. RYAN: Yes.
MS. CALIO: Anne Vaara.
MS. VAARA: No.
MS. CALIO: Ed Mamou.
MR. MAMOU: No.
COMMISSIONER HOFFMAN: Thank you. The Motion failed.
Then, I'd entertain a Motion now to act on that Resolution, without any Amendments, as put forward by Steve Balagna.
MS. GRAMLICH: So moved.
MS. MANGUS: Support.
COMMISSIONER HOFFMAN: Any discussion on that Motion to move this Amendment forward? Whitney, please.
MS. CALIO: Steven Balagna.
MR. BALAGNA: Yes.
MS. CALIO: Mike Csapo.
MR. CSAPO: Yes.
MS. CALIO: Robert DePalma.
MR. DEPALMA: Yes.
MS. CALIO: Claire Galed.
MS. GALED: No.
MS. CALIO: Jean Gramlich.
MS. GRAMLICH: Yes.
MS. CALIO: Commissioner Hoffman.

COMMISSIONER HOFFMAN: Yes.

MS. CALIO: Amy Mangus.

MS. MANGUS: Yes.

MS. CALIO: John Myers.

MR. MYERS: Yes.

MS. CALIO: Steven Percival.

MR. PERCIVAL: Yes.

MS. CALIO: Mary Ann Ryan.

MS. RYAN: Yes.

MS. CALIO: Anne Vaara.

MS. VAARA: Yes.

MS. CALIO: Ed Mamou.

MR. MAMOU: Yes.

COMMISSIONER HOFFMAN: Motion carried. Thank you.

All right, the next item on our agenda then is consider a resolution or a vote just to confirm the previous Committee actions that we took regarding the Public Hearing, the 90-day time frame for people to -- is that on this agenda?

MS. CALIO: No.

MR. BALAGNA: No.

COMMISSIONER HOFFMAN: No? Okay, then I'm looking at the old one.

MR. BALAGNA: Here.

COMMISSIONER HOFFMAN: There we go. Okay, I have it
now. All right, then we also -- and we might have hit on
those already -- but, there were some comments we received
after that 90-day period, and does anybody have any questions
or concerns or comment about those? They would be on pages
30 to 33. And I think Steve referred to one.

MR. BALAGNA: Yeah, I was addressing all the comments.

COMMISSIONER HOFFMAN: Okay. Does anybody else have
any concerns about those? All right. Is there any new
business this Committee needs to address today? Mike.

MR. CSAPO: I'd like to make a Motion that we request
that the Administration conduct an evaluation of the process
and associated cost with amending the current Solid Waste
Management Plan, as a means of updating that plan.

MS. RYAN: Support.

COMMISSIONER HOFFMAN: All right, it's been moved and
supported to request the Administration review what it would
take to update the County Solid Waste Plan. Is there any
discussion on the Motion? Whitney, will you call the roll,
please.

MS. CALIO: Steve Balagna.

MR. BALAGNA: Yes.

MS. CALIO: Mike Csapo.

MR. CSAPO: Yes.

MS. CALIO: Robert DePalma.

MR. DEPALMA: No.
MS. CALIO: Claire Galed.
MS. GALED: Yes.
MS. CALIO: Jean Gramlich.
MS. GRAMLICH: Abstain.
MS. CALIO: Commissioner Hoffman.
COMMISSIONER HOFFMAN: Yes.
MS. CALIO: Amy Mangus.
MS. MANGUS: Yes.
MS. CALIO: John Myers.
MR. MYERS: Yes.
MS. CALIO: Steven Percival.
MR. PERCIVAL: Yes.
MS. CALIO: Mary Ann Ryan.
MS. RYAN: Yes.
MS. CALIO: Anne Vaara.
MS. VAARA: Yes.
MS. CALIO: Ed Mamou.
MR. MAMOU: Yes.

COMMISSIONER HOFFMAN: Thank you. Is there any other new business to come before this Board today? All right. Is there any miscellaneous business to come before the Board?

MR. DEPALMA: I'm just curious -- is someone on the Solid Waste Department going to send out approved language that we'll all be looking at to send to the various
communities? We've got to get the 41 out to the communities.

    MS. CALIO: Right. Once it goes through the Board of Commissioners -- no, actually --

    MR. DEPALMA: I'm just interested if we're all going to get a consistent set of languages to approve.

    MS. CALIO: Yes, we are. We're going to prepare a sample resolution and kind of discussion for all the communities of what's taking place.

    MR. DEPALMA: Okay.

    COMMISSIONER HOFFMAN: Thank you. Any other miscellaneous business? Mike.

    MR. CSAPO: Just a quick question. Will you be letting us all know, as far as scheduling, when it's going to go before various communities? Would that be something you'd communicate with us? I realize it's up to the City Councils and the City Managers in most of those communities, but --

    MS. CALIO: Right. We can do that periodically, yes.

    MR. CSAPO: Thank you.

    COMMISSIONER HOFFMAN: That's a good idea. Do we have a date for the next meeting? What's the time frame? I don't think we have anything pressing.

    All right, now I'd like to call for public comment.

    Mayor Waterman.

    MAYOR WATERMAN: Yes, thank you, Chairman Hoffman and
to all of the Solid Waste Committee here. I appreciate the
opportunity to come before you to tell you that Pontiac did
dvote soundingly for the resolution to support the Rizzo
Amendment for a facility, solid waste transfer facility in
Pontiac, and you have previously heard that this was solidly
supported by the City Council, voted six to one abstention.

And, although City Council still has to have this
approved, because as you know we're under State supervision,
I can as Mayor come and tell you what our acceptance is of
this particular venture in Pontiac.

I didn't speak during the public hearings, public
comments period before, because of the fact that at that
point we were still negotiating with the Rizzo
representatives the Host Agreement. There was a Host
Agreement that was in place, as had been left by the
Emergency Manager before I took office. I've been in office
for about two and-a-half months. I didn't know that I would
be cutting my Mayoral teeth on solid waste -- but, this is
what it is. It is what it is.

So, we are happy with the outcome. And I did not speak
before, because we thought that we shouldn't negotiate a more
equitable Host Agreement, and we're very happy now with what
we have in front of us. As you've heard, it's an increase in
the tonnage. The royalty rates that will be paid we think is
more equitable, given the fact of the estimation of the
infrastructure damage over time that will be wrought by this particular industry.

So, we had a chance to do our due diligence, both of us who were new, including three new councilpersons, and wanted to do our own negotiation, our own research, our own due diligence; and we did that. So, we're satisfied with the results.

For a number of reasons, we are happy now to accept this and are happy that the Solid Waste Committee has affirmed our resolution passing of that, which affirms that we will not only support this motion that you've just passed here but also will support any efforts on behalf of the Rizzo enterprise, in the event they need to obtain tax-exempt financing for this venture.

Now, one of the things that we're happy about in terms of welcoming this opportunity for Pontiac is the fact that it gives us an opportunity for diversity. You know, we have come from the situation of having five automotive plants to one, and that's an economic reality for me. So, as we are developing new opportunities and an open-door policy for business -- Pontiac is open for business. We now want to make ourself a development-ready city and under this Administration are making all the strides to do that.

So, we are diversifying the kinds of industries we are bringing into Pontiac. This is the opportunity and the time
to come to Pontiac. We have lots of properties, lots of
vacancies, lots of affordable properties, and we are seeing
that there are new opportunities and new inquiries into what
Pontiac has to offer right now. So, we are opening the
door.

Secondly, the increase in royalty rates certainly will
help our coffers, if this goes through all the proper
channels and comes to fruition.

Thirdly, the property we're talking about, the 900
Baldwin site, I think you all know is a repurposing of a
Fiero site. That's a RACER Trust property which, because
of its situation and the hazardous waste condition there,
would not have been well zoned for many other kinds of
industries. So, this is the kind of industry that was
well-purposed.

It gives us repurposing of that site and also puts it
back on our tax rolls. The property taxes will be very much
well received from this enterprise. And I must say, in
behalf of Rizzo, that they did not ask for a brownfield
exemption, and I do also credit them with that, as many other
of the buyers of RACER Trust properties have tried to
achieve.

So, for those very many purposes, we appreciate the fact
that the Solid Waste Committee did also affirm what we had
concluded in Pontiac. And we have in all the dealings we
dealt with Rizzo, I mean, we needed to negotiate, and we kind of had to keep our meeting the minds there.

But, when it was all said and done, I thought it was very credible, very reputable dealings, and we will be happy to see this process play out. And, in the event that it's all approved and goes through the processes, we will welcome the Rizzo enterprise to come to Pontiac, Michigan.

COMMISSIONER HOFFMAN: Thank you, Mayor Waterman. Thank you very much, very well said. Is there anything else? Yes, sir.

MR. RICHARDS: Yes, sir. I want to thank the Committee for this time to speak in front of them.

COMMISSIONER HOFFMAN: Please state your name.

MR. RICHARDS: My name is Greg Richards, and I am the Founding Chairperson of the East/West Baldwin Block Club in Pontiac, a resident of Pontiac, and my district is where the Rizzo facility will be.

Our Block Club is in total support of this. We have done the due diligence ourselves, and we have asked many questions. Our questions have been answered. Our fears were put to rest.

I would also like to say, to see a Committee Member try to throw a monkey wrench into this amendment this late in the game, that should have been done at the beginning, not at the end. And I want to thank you for your time.
COMMISSIONER HOFFMAN: You're welcome. Thank you, Greg. Any other public comments? Anything from the Board?

MR. RIZZO: I just wanted to thank the Board and thank the Mayor of Pontiac and the Council of Pontiac. So, I just wanted to thank you.

COMMISSIONER HOFFMAN: You're welcome.

MR. COWAN: Mr. Chairman -- thank you. This is first base. We're out of the batter's box. We got a lot of time to, you know, get around the bases yet. But, this really is a great start, and thank you very much.

I did want to thank -- you know, Mr. Rizzo has already thanked the City and you -- but, I do want to say that I deal with a lot of governmental entities at every level, and the staff that you have here has been nothing short of exemplary. They have been excellent. You are well-served, led by Dan Hunter and Mr. Gibb.

But, I know there are several people here from the staff; but, if I didn't say that we are eternally grateful for the efforts of Whitney Calio, I couldn't sleep tonight, because she has borne the brunt of our letters, telephone calls, e-mails, questions and things of that nature, and she has handled every one of those with grace and with acceptance in doing her job on behalf of the people of Oakland County. So, thank you very much.

COMMISSIONER HOFFMAN: Any other public comment?
All right, before we close I just want to echo what Dennis Cowan just said. I do want to thank the staff, too, because they absolutely make our job easy.

And I want to thank all the Members, too, who volunteer for this high-paying job. Thank you all very much.

MR. BALAGNA: Yeah. At one time we even got mileage -- remember that?

COMMISSIONER HOFFMAN: Meeting adjourned then at 1:40.

Thank all of you for coming. Thank you very much.

(Meeting adjourned at 1:40 p.m.)
