

PRESS RELEASE

Troy Division of the 52nd. District Court to Join State Judicial Information Systems

Public Date: June 28, 2011

Contact: B. Jill Palulian, 52-4 District Court Administrator

Phone Number: 248-528-0406

Troy, Michigan, June 28, 2011 – In a move designed to increase efficiency and reduce costs, the Troy division of the 52nd. District Court will join the State of Michigan Judicial Information Systems (JIS), a court case management system provided and maintained by the State Court Administrative Office.

Troy Division will begin using the JIS application on July 1, 2011. The court will remain open during the transition. However, the online payment function will not be available from Tuesday, June 28, 2011 at 5:00 pm until Tuesday, July 5, 2011 at 7:00 am.

The State JIS replace the Troy Division's existing case management system. This change is expected to produce significant cost savings while boosting productivity and efficiency in court operations.

Key benefits of the change:

- Reduces 52nd District Court budget without cutting services
- Increases productivity of 52nd. District Court offices
- Increases efficiency in court operations
- Eliminates redundant operations by consolidating case management with State of Michigan Court Administrative Office
- Streamlines future updates and maintenance of case management system
- Prepares for future upgrade to "next generation" Michigan court case management system.

52nd District Court Divisions in Clarkston and Rochester Hills implemented JIS earlier this year. Novi will also join the State JIS in October of 2011.

For media inquiries, please contact B. Jill Palulian, 52-4 District Court Administrator at 248-528-0406.
