

KICK-START YOUR CAREER

WITH OCC'S SHORT-TERM TRAINING PROGRAMS

Sang Lee had worked his way up the ladder through the restaurant industry for more than 20 years. After being in the food business for so long, he decided he wanted to pivot into a new career. After completing the PLC & Robotic Technician program in 2023, he was hired with Challenge Manufacturing.

No matter what your previous work experience is, you can also start a new career in a matter of weeks!

“ THIS PROGRAM IS
FOR SOMEONE WHO WANTS
TO CHANGE CAREERS. ”

DURING THE EVENT, YOU'LL LEARN:

- OCC's short-term training programs
- How to apply and funding availability
- Discover types of jobs in the industry
- Opportunities to earn industry certifications and employer networking
- Meet with OCC and Michigan Works! representatives
- Tour the labs
