Subject: Foods Inspection Project - Land Leadership Request

Good afternoon,

The Health Division is requesting an eVote approval for the use of 20 hours from the Land Leadership sizing budget to size a new Board Of Commissioners/Health Division restaurant inspection results application. This project was discussed at the last meeting.

Benefits to the County for this project includes:

- FOIA process by the general public accessing information directly
- Transparency to the general public regarding our services and findings
- Promotion of public health process and public health code requirements.

Please vote for both questions below:

Q1: YES or NO

Does the Land Leadership Group authorize an electronic vote on this request?

Q2: YES or NO

Do you approve the use of 20 hours from the Land Leadership sizing budget to size the new app?

Thank you in advance,

Leigh-Anne
