

For personal comfort during your visit to an Oakland County Park, we are providing a list of portable restroom locations that are available during the COVID-19 situation since some of our facilities are closed, or not yet open for the season. The portable restrooms are being maintained by a contracted service. If you find an issue, please call our front desk at 248-858-0906 so we can call our contractors to address any cleaning issues.

The overall health, safety and wellbeing of your family and our staff is our top priority.

Thank you for your patience, as we all work together to provide you with chances to recreate during the COVID-19 pandemic.
