

# Oakland Community College Pre-Apprenticeship Participant Information Session

OCC's Pre-Apprenticeship program provides students a foundation of skills needed in advanced manufacturing fields such as safety, blueprint reading and shop math to qualify them for high-demand careers.

In addition to coursework students may earn up to three industry recognized credentials. Upon successful completion, OCC will connect students with employers who are seeking qualified candidates to fill or create apprenticeship positions. Interested students should attend one of the virtual information sessions below.

## Information Sessions:

October 14, 2020 4:30pm - 5:30pm
